

BLOW, WARM, VACU 4

Small units

sample picture: BLOW 4 for 4 pairs of shoes or boots

OSMA panels of the „elegance“ line offer stability and an elegant design. The shape of the handles allows an easy positioning of low shoes, children's shoes and sports shoes, and prevents them from tilting. The drying is most efficient when the tip of the shoe is pointed upwards. The individually heated handles guarantee an even distribution of warmth in each shoe. The low power consumption justifies the use of this particular unit. The high-grade steel panels feature a 24 hour timer and a 4 hour clock timer.

Advantages

- easy to position low-, children's- and sport shoes, and gloves on the handles
- low power consumption
- efficient drying process
- easy to clean
- programmable 24 hour timer

Optional accessories & upgrades

- illuminated on/off switch
- 6 hour clock timer
- glove adaptor

Technical details

- elect. connection: 230V~/50Hz (Euro plug)
- made of high-grade steel
- 24 hour timer
- 4 hour clock timer
- maintenance free radial fan (excl. Warm 4)
