

VACU „elegance“

Installation instruction

The following installation material is enclosed with the VACU (following the steps of the installation):

1/arc 89° or branch

1/pipe 100 cm

2/pipe clamps

When placing more VACU units next to each other, please note to order a branch instead of the 89° arc.
Materials listed above are included in the VACU price.

Additional T-pieces and various pipe lengths are available upon request.
